No Risk Grazing Workshop with Greg Judy - Sunday 26th June

Greg Judy is a regenerative rancher from Missouri (USA) and is the author of *“How to think like a grazier”* and *“no risk ranching”*.

Visit: www.greenpasturesfarm.net

Environmental Benefits

He has transformed how other farmers and ranchers think about grass and forage systems for livestock production. He has demonstrated that farms and ranches can be profitable and have huge environmental benefits, which is driven by a focus on soil health. He will be one of the main speakers at the Carbon Calling conference on the 25th June 2022.

The Workshop

This full-day workshop will provide an opportunity for Greg to talk through his approaches and help delegates see the potential of their businesses.

Book now, limited places

Places: Only 50 places available.

Venue: Sleestonhow, Kirkby Thore, Penrith, CA10 1XL

Cost: £150 (+VAT) includes lunch and refreshments.

One-to-one Sessions: One-to-one sessions available.

Stretch your leg(s) with Greg, he is available on the evening of the 25th June 2022 to hear his thoughts on the host farm and his work with diverse leys.
